

OnWater: Change Sail Numbers on the Fly.

OnWater does not have the functionality to allow "on the fly" changes.

The sail numbers have come from TES and are the sail numbers that TopYacht is expecting to provide sensible results.

If a sailor wishes to update their Sail Number then they can log in to TES and "Update" their entry at any time **PRIOR** to you executing a Step 6a in TopYacht.

There must be ground rules that "**changes won't be accepted after 09:00 on the day of racing**" or equivalent.

Execute a Step 6a in TopYacht at 09:05 and import the entrants.

Make sure to select Options 1-4 on the import screen before clicking

Data Import for this Race and this Series....

Be careful to select the options to suit your requirements!

- 1 - Add NEW entrants to Race_Series - include HCs where approp
- 2 - Import/update HCs for existing boats where applicable
- 3 - Update ALL details for existing entrant IN SERIES/RACE eg Te
- 4 - Update ALL details for existing entrants IN MASTER LIST eg T

Once you have executed Step 6a, click
