

Team Scoring in TopYacht.

Important:

This Team Score in TopYacht is **not** Teams scoring as per the RRS Appendix D.

The most likely scenario is at a regatta, where some boats are chosen from each club to form a team. The results of these boats are then extracted from the main racing program into a subset just containing these selected boats to form a separate 'team-score' series.

Requirements and Important Concepts.

1. A team Series can be totally independent. However, it is usually a Child Series. The parent series contains all the team boats plus potentially all the other boats.
2. The boats scored within the Team Child Series will **not** import scores from the parent Series. This ensures that the boats are only scored against other 'team' boats.
3. Boats are grouped by the "from" column e.g. all boats with SYC are one team while boats with RBYC are another.
4. Each "team" **must** have the same number of boats.

Step 1: Create a New Series

On Page 2 of the Setup wizard:

- Set it to "Team Score Series"
- Set it to "May use times etc. "or "... Times and HCs" if handicaps are to be copied from the parent

PAGE 2 ADVANCED SETTINGS
These should **ONLY** be altered for complex events.

SHARING FINISH TIMES. This Series...
May use times and HCs from some races in other Series

Offer: Import Listed Classes Only

Step 2: Enter the Boats into the Series.

Use TopYacht Menu Item 3 to enter only the team members into the Series.

Step 3: Amend the 'From' Column

Use TopYacht Menu Item 6 to amend the Team Name for each boat as necessary

Step 4: Set up a Race

This would normally be set up as a Shared race using start (and finish) times from the Parent Series. The Handicaps may also come from the parent OR they can develop just within the team Series.

Step 5: Process the Race

As normal.

Step 6: View Results

As normal

Step 7: Series Scores

Use: *Admin Mode | Series Scores for Teams*

Step 8:

This provides a number of options.

One Discard per Race	<input type="checkbox"/>
Different Comps Per Race	<input type="checkbox"/>
Aggregate By Team Place	<input type="checkbox"/>
Aggregate for Club Marine	<input type="checkbox"/>
AVW Boat Discard	<input type="checkbox"/>
Low Point Boat Discard	<input type="checkbox"/>

Option 1:

Choose no option and just press the  button will give the Series Scores based on the best aggregate score for each team.

Warning

Be careful when applying multiple ticked options. You may get some unexpected outcomes!

Other point to consider.

When the boats are in different division then the scoring is unlikely to be fair across divisions. E.g. if there are 15 boats in Division 1 and only 10 in Division 2 etc.

There are two possible solutions to this.

Use High point so the place reflects the numbers of boats the boat beat, or use the YV "Club Marine" option that endeavours to normalise the scores across Divisions.
