

# TopYacht ~ Pursuit Race Offset Time Display Management

## Background

TopYacht generates BOTH Offset times (from the first start) and .time-of-day timestamps for each boat. The time-of-day timestamps are computed based on the start time of each division entered in TopYacht Step 2

## Prerequisites:

This **only** applies for pursuit racing where Time Correction Factors (TCF) are used.

## Usage:

A typical race entry list for a pursuit race is shown below.

▲ Pursuit Race Offset Times for Race 3 of Ports Victoria Twilight Series

New Offset On Results

Uses slowest boat

Uses '0 AHC' below

Update Offsets

**'0 AHCs' Offsets**

Offset in... Mins Mode: Sort Display/Hide Columns Add Blanks Print Close

This example displays **both** the Time-of-Day and offset times. The start time has been configured for 18:00.

Click  Display/Hide Columns

- The left-hand pane contains a list of the hidden columns of the report
- The right-hand pane contains a list of the visible columns of the report

**Time HC** and **Bt Strt** correspond to the column headings for the offset time and Time-of-Day timestamps.

By highlighting the target column name and depressing either the  or  will move the name to either the visible or hidden column.

Press  when done, and the report will reconfigure.
