TES: Moving Entrants to Different Series

Restrictions:

It is only possible to move a boat from one series to another **within a given event.**

Changing events requires a new entry, and deleting the boat from the (first) event.

Steps:

1. On the opening Admin page of TES, select the Series they entered incorrectly
2. Click the **Edit** button
3. On the Edit screen find the relevant boat
4. Press the **Move** button
5. Follow the on screen prompts.

Keep in mind that fees may change when changing Series. This has to be resolved manually.
