

Using the TY-Res Rotating Results Screens

Background

The Rotating Results screens are the perfect addition to the bar for post-race. They scroll through all the day's results in a continuously. As more results become available, they are seamlessly added to the scroll list.

Prerequisites

- The TopYacht database is linked to the TY-Res system [View HERE](#)
- A large 'smart' TV with an inbuilt browser or just a large TV with a computer-compatible video input port
- A Rotating Screens license extension Click [HERE](#) for Licensing fees

	Boat Name	Sail No	Skipper	Fin Tim	AHC	Cor'd T
1	IMPACT	1812	Jack Schroder	17:37:58	0.652	00:41:03
2	IMPRESSION	3000	Ben Sceats	17:39:35	0.641	00:41:24
3	OVLOV MARINE	2001	Gary Sugden	17:31:15	0.743	00:41:48
4	MRX MAESTROS	1998	Tom Macky	17:30:20	0.764	00:42:16
5	TOUCH OF GLOSS	1999	Jack Hansen	17:30:25	0.765	00:42:24
6	NORTH SAILS	1997	Mike Thorpe	17:31:01	0.765	00:42:51
7	MYSTERIOUS X	1994	Martin Wylie	17:29:31	0.793	00:43:14
8	MEN AT WORK III	8653	Jon Ward	17:28:01	0.825	00:43:44
9	PSYCHE	4642	Paul Groom	17:29:57	0.801	00:44:01
10	PANAMA JACK	423	Richard Lewis	17:35:01	0.742	00:44:32
11	EXTREME	8169	Nick Stenson	17:25:58	0.875	00:44:36
12	TIGGA	9808	Stuart Scott	17:28:43	0.831	00:44:38

14	ELLIPHUNK	6855	Steve Kennedy	17:34:09	0.767	00:45:22
15	HYDRAULINK	2000	Euan Little	17:34:20	0.765	00:45:23
16	HOWZAT	3250	Allen Wallbridge	17:33:48	0.791	00:46:31

Typical Scrolling Results Screen Shot

Determining the URL for the TV Browser

Step 1

Obtain the TES Event ID (evid).

Click [HERE](#) for instructions.

Step 2

Load this URL into the browser's URL address location

<https://topyacht.net.au/tyres/Controller/RrRoute.php?evid=xxxx>

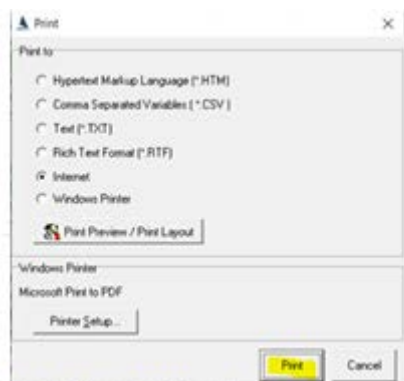

where xxx = the TES Event ID determined in Step 1

Uploading Results

The upload process has been automated to make it as simple as possible.

Option 1

Performing a routine "Internet upload also uploads results to the TY Results database which drives the rotating results screens

Option 2

If you don't want to print the full results to your web page but do want to send preliminary data to the rotating screens (i.e. large fleet where the fast boats are already in the bar, but smaller boats are still finishing)

You can use the small green button on the view race results screen to just send to the rotating screens – Note you'll need to use the green button on each group (there is no 'ALL GROUPS' option)

Notes

The screens will pick up ANY results 'printed' to web on the date viewed.

For example, any changes to Wednesday's results made on Thursday, Wednesday's changed results will display in addition to the Thursday's.

Rotating screens are based on 'printed' date, not the race date.

Clubs may choose to wait until after prize giving to print any changes to previous days.
